

## SCENIC BOAT TRIPS AND CRUISES IN CAPE TOWN

### WHITE SHARKS CAGE DIVING/VIEWING (Code: CSD11)

Approximately 12 km offshore from Gansbaai (2hr drive from Cape Town), are two islands adjacent to each other. Due to a number of geographical reasons – one being the shallow and narrow channel that runs between these two islands- **Dyer Island has become known as one of only two unique areas in the world**, where the chances to view the great white shark, rises exceptionally high. Other wildlife species such as Cape Fur Seals, Cape Gannets, Cape Cormorants, Jackass penguins, whales and dolphins are likely to be sighted.

Once anchored in the channel, a specially designed, secure two man steel cage floats no more than 1m below the surface. Non – divers have a great opportunity to view the feeding of sharks from the safety of the boat, where exhilarating photographs and video may be captured, at close range.

Duration is 8 hours, all year around. The best period for shark cage diving is between April and September. Visibility from 3 to 15 meters, and sharks are between 2,5 meters and 6 meters long. Minimum 2 pax

**Cost includes** return transfer, breakfast or light lunch, cold drinks on board, equipment necessary for immersion as well as ammunition, diving certificate upon completion of shark dives and the services of two highly qualified instructors.
