

HOOKED ON FISHING

Fishing is a well respected and professionally practiced sport in South Africa. The proximity of two oceans - the Atlantic and Indian, a large number of mountain lakes, reservoirs and rivers greatly expands your options for a possible catch.

Any professional fisherman would for sure have caught some type of tropical ocean fish. Most popular fishing sightings are considered to be the coasts of Durban and Cape Town.

What could be more exciting and relaxing then the time spent on board a boat in anticipation of a BIG catch? And if your catch turns out to be a Marlin or a Sailfish then your adrenaline filled dream of a BIG catch is surely fulfilled!

As the Marlin or Sailfish will bite the bait, your fishing line will test your strength, ringing in the wind and that is when you feel like a hero from the Hemingway's short stories.
